

Erigo® User Requirements Checklist

In order to ensure safe, effective and efficient use of the Erigo, the clinicians that are certified as users must have a certain level of practical knowhow before using the device on their own. This checklist serves as a support for you as a Trainer when you educate new users on the Erigo to check if they are ready to work with the Erigo. Before certifying a clinician as user, he/she should fulfil the criteria below:

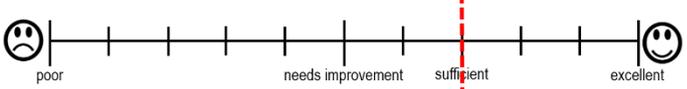

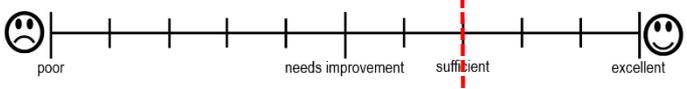

1. Prepare the Patient and the Erigo and Setup

		Description	Name of the Candidate: _____
1		Candidate knows indications and contraindications	
2		Candidate knows the criteria for proper alignment and fixation of the patient on/in the device	
3		If ErigoPro: Candidate knows the FES parameters and applies them correctly	

2. Training procedure: Adjustments

1		Candidate can perform the adjustments to ensure safe therapy (leg movement, appropriate loading)	
2		Candidate knows all the parameter adjustments and their interaction : tilt angle, loading, ROM, cadence, pattern, GF, hip extension/flexion	

3. General Aspects

1		Candidate can handle the patient in the device safely and knows how to handle an emergency situation	
2		Candidate knows different options how to challenge a patient	

To become a User, all ratings should at least be 'sufficient'

Candidate passed the User Education:

No

Yes
