

# ARMEO® SPRING PRO INTERNAL USER EDUCATION – RECOMENDED WORKFLOW

Below you can find a recommended workflow of the education of ArmeoSpring Pro users within your facility, conducted by a certified ArmeoSpring Pro Trainer. Please note that it is the ArmeoSpring Pro Trainer's sole responsibility when to move to the next step of the education with the user candidate. Each user candidate might proceed at a different pace.

## PHASE I

### THEORETICAL BASICS OF ARMEOSPRING PRO

- Intended Use
- Indications/ Contraindications / Safety
- Hygiene
- Basics about the parameters and adjustments

### OBSERVE (AT LEAST) 1 ARMEOSPRING PRO SESSION AS SPECTATOR

- Workflow explained and demonstrated by trainer
- Focus on set up and initials assessments
- Hardware and software adjustment consequences on patient
- Exercises and main features

### AT LEAST ONCE BE SET UP IN THE ARMEOSPRING PRO

- Get the self experience

Caution! The instructions in the user manual and accompanying documents must be read before the device is used for the first time.

## PHASE II

### PARTICIPATE IN ARMEOSPRING PRO THERAPY SESSIONS ACTIVELY

- Get involved actively in more and more steps of the ArmeoSpring Pro training
- Get familiar with hardware and software handling
- Get familiar with the different exercises and assessments
- Adjust therapy to patients' abilities and challenge the patient (training region editor and re-do initial assessments, arm weight support, difficulty level, visual detail etc.)

### PERFORM SET UPS OF HEALTHY PERSONS ALONE UNDER SUPERVISION

- Simulation of different scenarios
- Gain confidence

## PHASE III

### PERFORM ARMEOSPRING PRO THERAPY UNDER THE SUPERVISION OF A CERTIFIED ARMEOSPRING TRAINER

- Trainer rates the user candidate (with the User Requirements Checklist)

If passed  
Store checklist internally

If failed
