

Armeo®Spring Pro User Requirements Checklist

In order to ensure safe, effective and efficient use of the ArmeoSpring Pro, the clinicians that are certified as users must have a certain level of practical knowhow before using the device on their own. This checklist serves as a support for you as a trainer when you educate new users on the ArmeoSpring Pro to check if they are ready to work with the device. Before certifying a user, he/she should fulfill the criteria below:

Prepare the patient and the ArmeoSpring Pro and Setup

1	Candidate knows indications and contraindications	
2	Candidate knows the criteria for proper setup of the patient in the device	
3	Candidate performs and instructs the initial Assessments (A-ROM and A-MOVE) correctly	
4	Candidate knows how to manage the therapy plan	

Training procedure: Adjustments

5	Candidate knows the different exercises and assessments and their goals	
6	Candidate knows how to adjust the exercises to the patients' abilities (Training region editor and re-do initial assessments, arm weight support, visual detail, difficulty level, autogrip etc.)	

General Aspects

7	Candidate can handle the patient in the device safely	
8	Candidate knows different options how to challenge a patient	
9	Candidate knows how to use the ExtraTime feature and the report	

Candidate passed the User Education*: Yes No

* To become a user, all ratings should at least be sufficient
